App Store

Google Play

Charge the Battery

Before using the Focush for the first time or when the battery is low, you need to charge the battery.

We recommend that you use a charger of 5V 1A or above. You should charge the Focush for 2 hours when using it for the first time.

If the battery is completely discharged, you cannot turn on the device, even while it is charging.

Allow the battery to charge for a few minutes before you try to turn on the device.

When the battery is low, the device will show a low battery icon. Recharge the battery to continue using your Focush.

When you are not using your device, switch to sleep mode by pressing the power key. This can help you to save battery power and to be able to use the device longer between charges.

Don't attempt to replace the Focush battery yourself, as you may damage the battery and which could cause overheating, fire, or injury. Dispose of batteries according to your local environmental laws and guidelines.

GETTING STARTED

Hold ON/OFF key to power on. If you are using it for the first time, the device will ask to pair the app.

If you have installed the Focush app on your mobile/tablet, you can choose 'Pairing APP' and then scan the QR code to pair. If you have not installed the app, you can choose 'Pair Later.' The device will then ask you to set the date and time.

Can the Focush be used alone, or do I have to use it with the Focush App?

You can use the Focush alone. If you do not install the Focush App, you can use the Focush to create tasks, manage tasks, and do most of its functions.

If you want to view your task report or invite friends to join a task, then you have to install the Focush App to connect the functions above.

CREATE A TASK

A screenshot of the 'Create Task' dialog box. At the top, there is a close button (X), the title 'Create Task', and an 'OK' button. Below the title, the label 'Task Name *' is followed by a text input field. Underneath the input field, the text '0/32' indicates the character limit. Below the input field, the label 'Priority *' is followed by four buttons: two blue buttons labeled 'Lowest' and 'Highest', and two grey buttons. Below the priority buttons, the label 'Timer Type *' is followed by two buttons: a dark blue button labeled 'Focush Timer' and a light blue button labeled 'Pomodoro Timer'. Below the timer buttons, there is a paragraph of text: 'There are no time constraints, make it ideal for tasks with unknown durations. To complete a task, the user must manually press the 'End Task' button.' At the bottom right, there is a 'More settings' button with a downward arrow.

Timer Type

'Focush Timer' is suitable for tasks of indeterminate duration, such as drawing an illustration, writing a report, etc.

'Pomodoro Timer' is suitable for tasks of fixed duration, such as 50 minutes of yoga practice, 25 minutes of online courses, etc. (You can set a maximum of 125 minutes for a task.)

You can tap 'More settings' to add Repeat or Alarm.

START A TASK

The tasks will be added to the task list.
Click and hold the task name to see more details.

Click the  or  icon to start the task.

For 'Focush Timer' tasks, the screen displays the duration of the task. For 'Pomodoro Timer' tasks, the screen displays the countdown.

The Focush preset a 5-minutes break for every 25 minutes when you are on a task.

CALENDAR

With the calendar, you can quickly switch to other dates, add tasks for future dates, and execute tasks ahead of time.

You can also switch to preset to check the tasks.

Clicking the date will switch to the task list of your selection.

If you execute tasks ahead of time, the task will move to today's record. That is, Focush will record according to the actual execution date of the task.

OVERDUE TASK

We understand that overdue tasks are inevitable, and that doesn't mean you're not diligent enough. When an overdue task occurs, the task will be removed from the schedule to the folder 'Overdue Tasks.' You can always check the Overdue Tasks folder and complete them at any time. This works the same for completing a task for a future date. If you complete an overdue task, the task is automatically moved to today's record.

REWARD SYSTEM

If you turn on the reward system, you will get a marine life animal as a reward when you complete a task.

You can turn on the Reward system in Settings

Focush APP

With the Focush App, you can set tasks, invite friends to join tasks, manage friends, view rewards, and view task reports.

When using the Focush App for the first time, you need to fill in your name and set a password. The system will assign you an ID. Please remember your ID and password.

You can check your ID on the Profile page.

If you change to a new phone/tablet, you just need to log in with your ID and password on the new device.

Dump Tasks

We know that sometimes we need to get something done but may have no clear plan for accomplishing this. Using the app, we can quickly add these things to Dump Tasks and then 'transfer to Task List' when there is a clear plan.

Dump Task

Friend List

Enter your friend's ID to add friends, view your friends' rewards, and send task invitations. If you don't want to be disturbed, you can also set 'Allow Friend Request' OFF in the Profile.

 2. Tap the 'Scan 'icon on Focush APP, scan the QR code on Focush device.
 3. Your Focush device will display "Focush App user '****' wants to connect with you. Will you accept?" Tap "OK" to complete pairing. During subsequent use, as long as your Focush App is close to the Focush device, the App and Focush device will automatically establish a Bluetooth connection.

**** If you need to connect your Focush device to a new device, for example: if you have pairing your Focush device to an iPad, and you want to connect it to an iPhone now, you only need to install the Focush App on your iPhone, and log in your ID and Password in the Focush App of iPhone. Then you can use your iPhone to connect to your Focush device.*

27. How to import calendar(s) from google calendar or any third-party calendar?
- third-party calendar provided an ICS format calendar link, you can add it to Focush. You can add the ICS link in Focush App under Profile - Import Calendar.
- If you are using Google Calendar, you can obtain the ICS link from 'Google Calendar' - 'Settings' - 'Settings for my calendars' - 'Integrate calendar' - 'Public address in iCal format'.
- If you are using iCloud Calendar, In Calendar on iCloud.com, click 'share' icon to the right of the calendar's name in the sidebar, then select Public Calendar. You will get a URL link start with "webcal://", please replace "webcal" with "https". Then Copy the link into Focush App - Profile - Import Calendar.

Federal Communications Commission (FCC) Statement.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by **Comet Innovation Limited** may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF exposure statement:

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device is installed and operated without
